

The housing of the inox UV-C is completely made of 316L stainless steel and is the driving disinfection force for (high-end) pools.

The inox UV-C 130 watt amalgam includes a flow switch that will turn off the lamp when the flow is too low. The inox UV-C 130W includes an amalgam lamp. The UV-C amalgam lamp is less affected by temperature fluctuations in the water and generates a constant, powerful radiation. Amalgam UV-C light is known as being the most powerful UV-C light available on the UV-C market.

Please notice the correct grounding!

Please refer to page 52 for spare parts

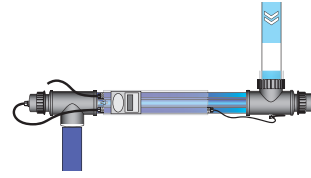

Advantages of the Blue Lagoon Timer UV-C

- Timer function that indicates the remaining lifetime of the lamp
- A built-in electronic ballast to ensure an efficient and stable power supply
- Up to 35% more UV-C yield as a result of reflection by the stainless steel reactor
- 316L stainless steel housing
- Easy to install and easy to maintain
- Comes with Ø63mm to Ø50mm fittings, 1½" female threaded
- Made in the Netherlands

Operation

The Blue Lagoon Timer UV-C has a built-in high-frequency electronic ballast. In addition, the device contains an integrated timer that accurately monitors the number of operating hours. You can therefore see exactly when the lamp must be replaced. The UV-C radiation inactivates bacteria, viruses and other microorganisms and stops them from multiplying. This device is able to reduce the chlorine concentration up to 50-80%!
